Dear Mr. Amit Dutta:

Information about your paper #1570875749 ('Pattern Analysis of the Stock Market Trend Based on Financial News Article') fc

Abstract: In today's world Stock market is seems to be a lot shifty. Common people go through a lot of hassle and find the un
second. The stock market is a complex and difficult system in which people can make money or lose their whole life savings.
where our insights will come in handy. We have analysed and calculated Risk factors of stocks from past thirteen years of ne
common people decide if they should buy and sell a particular stock at a particular situation. Stock market depends a whole I
algorithm are used to find trading patterns. But they are not meaningful nor seem to provide enough insight to be able to trad
used to merge and process news of specific dates. Deep learning and its variant recurrent neural network RNN and GRU is i
specific domain. We found this improved result due the utilization of Bidirectional LSTM.

No further action is required from you.
